

# Treatment Cost Estimator

## Helping Manage Healthcare Expenses

Presbyterian Health Plan, Inc.  
Presbyterian Insurance Company, Inc.

Presbyterian Health Plan's **Treatment Cost Estimator** is a new tool that members can use to manage and understand their healthcare costs. Members can estimate the cost of thousands of services from the initial visit through follow-up care, all before selecting a provider.

Members can search for a specific service, compare cost estimates from every available provider, and see a breakdown of what insurance will cover. Members will also have access to important information about their healthcare benefits, like deductibles, so they can be informed of out-of-pocket costs from the beginning.

### How it Works

The Treatment Cost Estimator is tailored to each member's individual health plan benefits. When members search and compare costs for services using the Treatment Cost Estimator, they see the most accurate estimate for out-of-pocket cost sharing for that specific service. The Treatment Cost Estimator automatically applies the deductible, copayment, coinsurance and out-of-pocket maximum.

### How Members Benefit

- See the average cost for specific procedures and services
- Receive out-of-pocket cost estimates before seeing a provider
- Compare providers, costs and other important information
- See all associated costs from the initial visit through the last appointment
- Find the nearest in-network provider\*
- Find providers who may be able to schedule a sooner appointment (based on availability)
- When selecting lower-cost venues of care, members may qualify for cash reimbursements to be used for other qualified expenses.

*\*Search results may vary based on data we have for providers.*

### Start Now

Presbyterian Health Plan members can access the Treatment Cost Estimator by logging in to their myPRES account and going to the MyHealthPlan page. From this page, select Financial Information and then "Estimate My Costs."

Members without a myPRES account can register at <https://mypres.phs.org/Pages/registration.aspx>.
