ERGONOMICS PROGRAM

A PROACTIVE APPROACH

Approximately one-third of all worker injuries are related to musculoskeletal disorders such as back strains and carpal tunnel syndrome. Preventing these injuries before they occur is the cornerstone of a safe workplace, and the Poms & Associates team is here to help.

Training

Whether for new employees, specific job groups, or as part of your annual requirements, our trainers can help provide the members of your organization with the knowledge and tools they need to perform their job duties in a safe, effective manner.

Injury Prevention

Our ergonomics consultants perform detailed assessments to analyze job tasks and environments to make recommendations for safer practices that will keep your employees healthy and productive.

Job Coaching

After a workers' compensation claim, Poms & Associates provides job coaching to determine the cause and implement changes to processes to prevent repeat injuries.
